Story of Success

Ram (29) residing in lahod village of balodabazar district with his parents,two siblings and wife ,belongs to middle class family totally depend on agriculture . Being Locomotor he face difficulty in going school because school is too far from his home that's why he was not able to continue his study after 8th standard. He said that since childhood he wanted to do something to support his family by his own.

Brief about intervention- how he/she heard support was available; what did he/she feel; significant challenge before intervention; kind of support he/she received/ role Sightsavers played. Talk to family members, a health worker or teacher for opinion on the situation- capture direct quotes in “inverted commas”

In the year 2016 he came in touch with Grihini associate and know about Sightsavers CG social inclusion program and understand the concept of Person with Disabilities Self-help group and took initiative and form Divyang jan sahyog samuh SHG in his village. He also took participation in various leadership and advocacy training, also participated in skill development training (stitching training, phenyl making) which was organized by Grihini. After getting training he decided to make phenyl in their SHG. During his free time he engaged himself in doing marketing of phenyl which was prepared by his SHG members and earns approximately around Rs 300 to Rs400 per month. Apart from this he also engaged himself in tailoring work and earn Rs 6000 to Rs 8000 per month, recently he did linkage with district hospital, Balodabazar for stitching cloths for ward boy, nurse, ANM and earn Rs 350 per set and he also distribute order within his SHG member so that he can deliver cloths on right time.

Significant improvement after intervention; how he/she feel his/her life has changed; what can he/she do that they couldn't before – substantiate by capturing direct quotes in “inverted commas”

Ram at last narrates that now he is getting all the benefits of PWDs government schemes according to his eligibility. He also mention that now his dream come true and now he is economically independent and appreciated by his family and society.
