Livelihood intervention sharing and NRLM orientation workshop

Grihini with support of Sightsavers organize one day livelihood intervention sharing and NRLM orientation workshop in collaboration with NRLM at Hotel Saatvik, Raipur on 6th October 2018. Main objective is to orient person with disability SHG members and staff of Members Grihini and Saamarth on NRLM. Session Start with floral welcoming of resource person Mr. Nirmal Prashad , SSIB and Mr. Jagjeet Minz, SISD. Then after Mrs. Rupa Srivastava, Director, Grihini share objective of CG social Inclusion program and what Grihini is doing in order to achieve objective of program. Then after a short video clip of Grihini was shown.

Mr. Nirmal Prashad , SSIB said The Government of India (GoI) established the National Rural Livelihoods Mission (NRLM) in June 2010 to implement the new strategy of poverty alleviation woven around community based institutions, which is renamed as “Aajeevika”. The programme was formally launched on 3rd June, 2011 at Banswada, Rajasthan and is being implemented in a mission mode across the country. Then he said that the core belief of National Rural Livelihoods Mission (NRLM) is that the poor have innate capabilities and a strong desire to come out of poverty. The challenge is to unleash their capabilities to generate meaningful livelihoods and enable them to come out of poverty. NRLM focuses on universal inclusion of the poor, prioritizing the

poorest of the poor, identified through participatory processes and converted into institutions of the poor that are supported to leverage formal credit and access services and benefits meant for the poor, as well as develop innovative community led interventions leading to sustainable livelihoods and improved quality of life. The mission of NRLM is “to reduce poverty by enabling the poor households to access gainful self-employment and skilled wage employment opportunities, resulting in appreciable increase in their incomes, on a sustainable basis through building strong grassroots institutions of the poor. These institutions enable and empower the poor households to build-up their human, social, financial and other resources. They in turn enable them to access their rights, entitlements and opportunities.”

Mr. Jagjeet Minz, SISD said NRLM is a highly process oriented programme and requires intensive application of resources, both financial and human, in order to mobilize the poor into functionally effective institutions, promote their financial inclusion and diversify and strengthen their livelihoods. NRLM intends to work in a block for a period of ten years till community federations take responsibility of implementation. A typical block having about 13,500 (90% of total poor) mobilize-able poor households spread over 100-120 villages is divided into 4 clusters of 30 villages each. In a typical intensive block, the first 3 years are spent in building the organisations of the poor by mobilising them into SHGs, Federations at Village, Cluster level and Block level. Funds flow to the community institutions over the first 4-5 years. The middle, years 3-6, are invested in deepening the activities and addition of various layers such as health, nutrition, interventions for Persons with Disability (PwD), etc. Last 4 years is essentially a maintenance and withdrawal phase where the community institutions graduate to self-reliance and self-sustainability.

Implementation in the blocks is being done in four ways –

- a) Resource Blocks-with the support from National Resource Organization
- b) Intensive Blocks- implemented with SRLM staff and internal community resource persons and the CRPs generated in resource blocks;
- c) Partnership Blocks- with the support from local community federations and NGO partners
- d) Non-intensive Blocks- are the remaining blocks in the state which are not taken up for implementation in the initial phase.

Then Resource person also discuss about SHG Panchsutra and why it is important for every SHG

- a. Regular savings
- b. Regular savings
- c. Regular internal lending
- d. Regular repayments and
- e. Transparent books of accounts.

Mr. Jagjeet Minz at last said that groups that adhere to Pancha Sutras are found to develop enormous bonding, mutual trust and support among group members. Infact, adherence to Pancha Sutras is insisted by bankers as a benchmark of ability of group members to come together and demonstration of the ability of group to handle financial transactions and credit worthiness of groups. He also share Protocol for grading of SHGs and said that Every SHG shall be graded for the first time by the Village Organisation (VO) / by the SRLM at the end of 3 months from the date of formation of SHGs.

At the end of workshop thanks giving was done by Mrs. Rupa Srivastava Director, Grihini which was followed by group photographs.

World Sight day...

Free Eye check-up and awareness on eye care...

On the occasion of world sight day Grihini with support of Sightsavers organize eye screening camps and awareness on eye care at Palari on 11 October 2018 in which 97 people got their eyes checked. Program commence with welcoming of Dr. Shilpa Sahu, Eye specialist, Dr R.K Sahu and Dr Sarita Suryawanshi, optometrist, Mr. Mahesh Barle Village sarpanch, which was followed by Introduction of Organization and CG social inclusion program objective by Mr. Pranay George, DPM then Dr. R.K Sahu said why World Sight Day is celebrate in whole world by everyone and how it will help everyone. He said that most of the people are not aware of proper care of his/ her eyes thus they face problem related to eyes. He explained some common disease which mostly found in eyes which slowly cause blindness. Also aware people about different government program on eye health and told that government also open eye specialist hospitals at every place for

better treatment. After that Dr. Shilpa Sahu discuss about eye safety and its treatment, she said that in village most of the people know that their child is having eye problem but they every time ignore instead of taking precaution, she also mention that smoke is also one major cause of bad eye sight, no proper nutrition diet can also cause blindness.

Then after they discuss about what precaution one must take for good eye health, they also mention while touching eyes one must wash his/ her hand with clean water, any problem related to eyes they must consult eye specialist, If anyone is suffering from TB, Sugar, BP etc they must go to eye specialist on regular basis for check-up.

In next session screening was done by eye specialist for all the participant's they suggest what precaution to take for good health of their eye sight. They also distribute eye drops, suggest eye hospitals and also gave specs details to participants. This was followed by vote of the thanks to resource person and all the participants.
