

Sevaniketan Report 2016

Chhattisgarh

Seva Niketan is a government supported private institution in Raipur at Chhattisgarh. It mainly help the disable people with their life by providing them free accommodation, trainings, food, and medicines to them. Some of the basic trainings programs that are being run by the organization in order to train the disabled are as follows:

1. Tailoring.
2. Welding
3. Computer
4. Electrical.

The process of taking admission in Seva Niketan involved mainly 5 phases, in which the coordinators tried their best to help PWDs and their families in giving them the detailed information needed by the PWDs regarding the institution, accommodation, duration of training process, etc.

Phases

1. Recognition of Institution.
2. Getting Information and Details.
3. Survey.
4. Collection of Details of the individual.
5. Taking family for a visit to the Institution.
6. Admission.

The actual process started in the month of January 2016. When they came to know about the organization, thus the livelihood coordinator and the other block coordinators visited the institution, to know more about its workings details and functions especially the admission procedures and its details.

Thus on getting the information and the details about the institution. The coordinators started their survey for the PWDs needed the admission and the training. Thus on getting the number of PWDs wanted to take admission their details were collected for the further processes. Thus on completion of all the procedures. The individual and the family members were taken to the institution for the visit. And even after visit it was made sure that the family and the individual liked the place and the training method. Thus at the last if they wanted the PWD members were given the admission for staying their within the campus and get the training on the trade they wanted to get trained in.

Grihini played an important role on the following procedure in giving people the information, sensitizing and supporting them where ever needed to the families and the individual needed. Thus with the hard works of the coordinators and the support of Grihini, now around 21 PWDs have taken admission in Seva Niketan within a period of 6 months. Thus few PWDs have grown so much confidence in them that they have even taken two professions at a time. Also through the market survey the organization is being trying to look for the same kind of trades and businesses where the trained PWDs after their training can fit into. And start their own earning.

Fallowing PWDs are taking Training in Sevenekitan Raipur
